ASPIRE

Empowering businesses to exchange waste as a resource

What is a circular economy?

This movement is all about moving our economy from linear to circular

Increased consumption & high waste  Doing more with less

- Keep using things, rather than using them up
- Keep materials in use, keep products in use
- Treat waste as a resource

Advisory System for Process Innovation and Resource Exchange

How can your business benefit?

- **Reducing** costs associated with waste disposal
- **Earn** money with a new revenue stream
- **Save** on CO2 emissions using localised solutions
